

C800 Series

OKI
PRINTING SOLUTIONS

Small in size and cost.
Huge in business benefits

C810
C830

C810 & C830

Up to half the size of competitor A3 printers

Fast, affordable, professional, A3 colour printing

These two fast A3 colour printers make professional quality printing affordable. With the small footprint you have come to expect from an OKI Printing Solutions' A3 colour printer, they will also fit neatly into your home office or small workgroup.

The C800 Series from OKI Printing Solutions.
Small footprint.
Giant leap forward in business A3 printing.

FAST

Fast printing to enhance business efficiency

The speed of the C800 Series will maintain working momentum and keep every organisation time-efficient and competitive. The time to first page is a brief 10 seconds and print speeds are 30ppm colour/32ppm mono in A4 and 16ppm colour/17ppm mono in A3. The printers come with Hi-Speed USB connectivity, as well as built-in networking capability to enable fast workgroup printing.

AFFORDABLE

A major win in cost vs. performance

Now there's nothing to stop any business enjoying high quality A3 colour printing. These highly affordable printers deliver low cost colour printing – significantly lower than A3 inkjet competitors. There's no penalty either when printing in mono, with the cost per copy being similar to mono-only devices. And as the C800 Series is network-ready, the printer's low cost printing can be shared by users for extra cost savings.

COMPACT

The most compact A3 colour printer available

These A3 colour printers pack outstanding performance, yet are up to half the size of other A3 printers. So any business can gain extra floor space without sacrificing speed, output or functionality. And being quiet, the printers can sit close to the desktop for added convenience and greater office efficiency.

From A6 to A3, from office documents and presentations to point-of-sale and brochures, take greater control by doing it all in-house.

VERSATILE

Handles many different documents with the same professional results

The C800 Series handles various document sizes and formats with ease. In fact, these printers are so flexible that they can print from A6 to A3 on a range of media up to 220gsm. A large paper capacity (1460 sheets max) from up to 4 paper sources means less user intervention is required, ideal for a larger workgroup. Duplex capability allows double-sided printing to produce booklets and save paper, while Template Manager 3.0 enables the creation of a range of professional looking documents in-house. This means perfect results when printing banners, posters, CD labels, business cards and more – helping every business to control its image and costs.

EXCELLENT RESULTS

Unique technology and features for better looking documents

Every colour document benefits from ProQ2400 Multi-level technology and our unique microfine High Definition Toner. These have been developed to work together to give greater depth of detail and colour to printed documents and a high gloss finish. Photo Enhance, selectable within the driver, allows users to print impressively sharp, photo like pictures on ordinary office paper. The C830 printer offers PostScript capability for printing from a greater range of creative applications and easier printing of PDFs.

Consumables Information: For the protection of your printer, and in order to ensure that you benefit from its full functionality, this model has been designed to operate only with genuine OKI Printing Solutions toner cartridges. These can be identified by the OKI trademark. Any other toner cartridge may not operate at all, even if it is described as "compatible", and if it does work, your printer's performance and print quality may be degraded.
